

adjacency matrix interval score

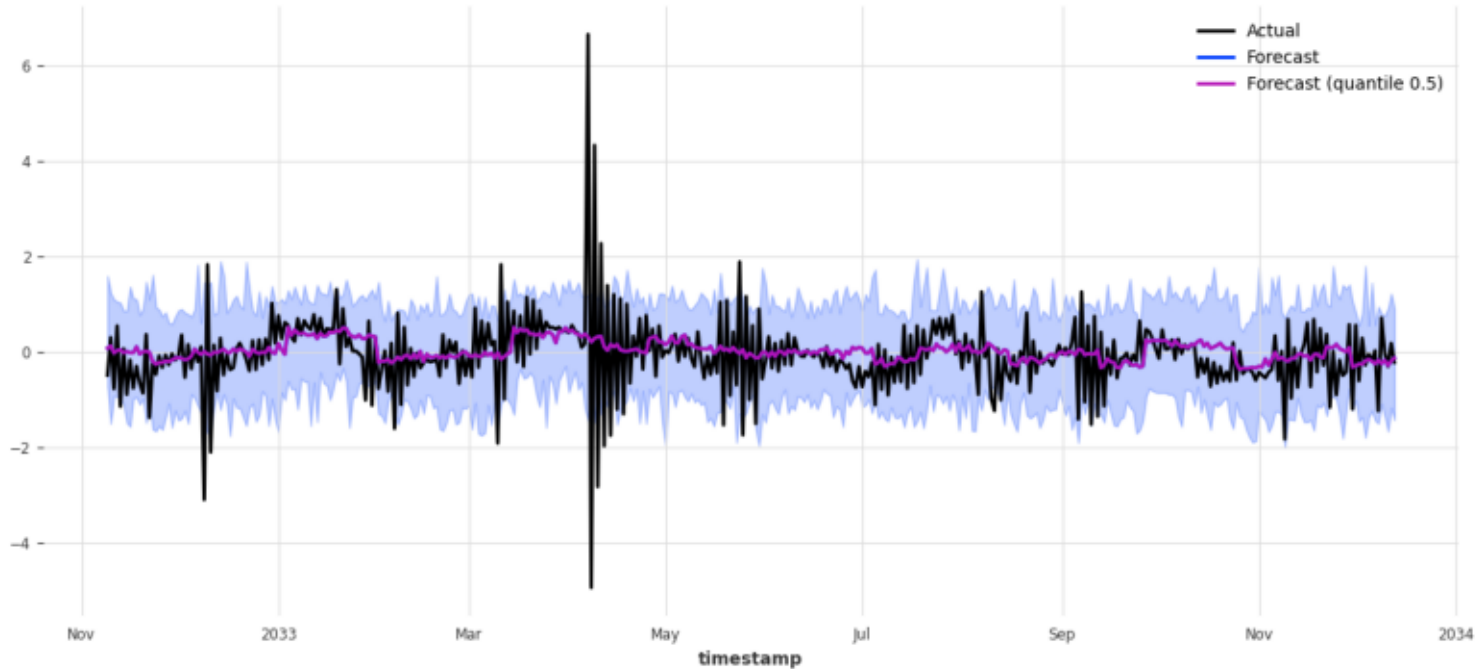

(c) Final adjacency matrix based on Interval Score PFI

V2 predictions

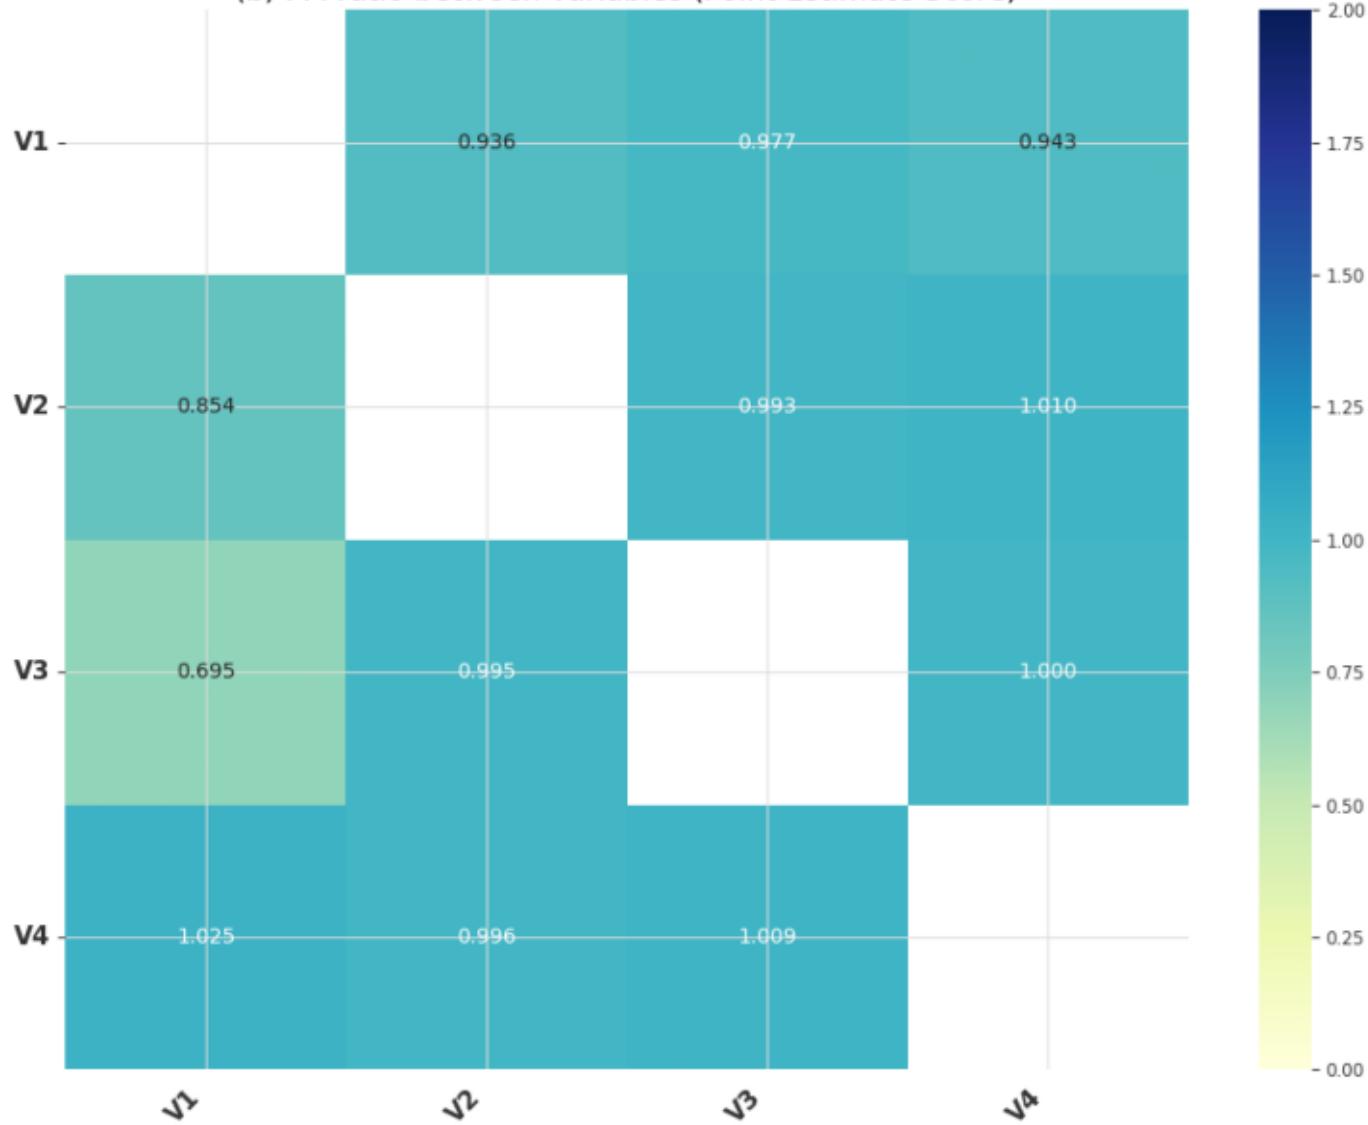

TFT Forecast vs Actual for V2

MSE: 0.6188

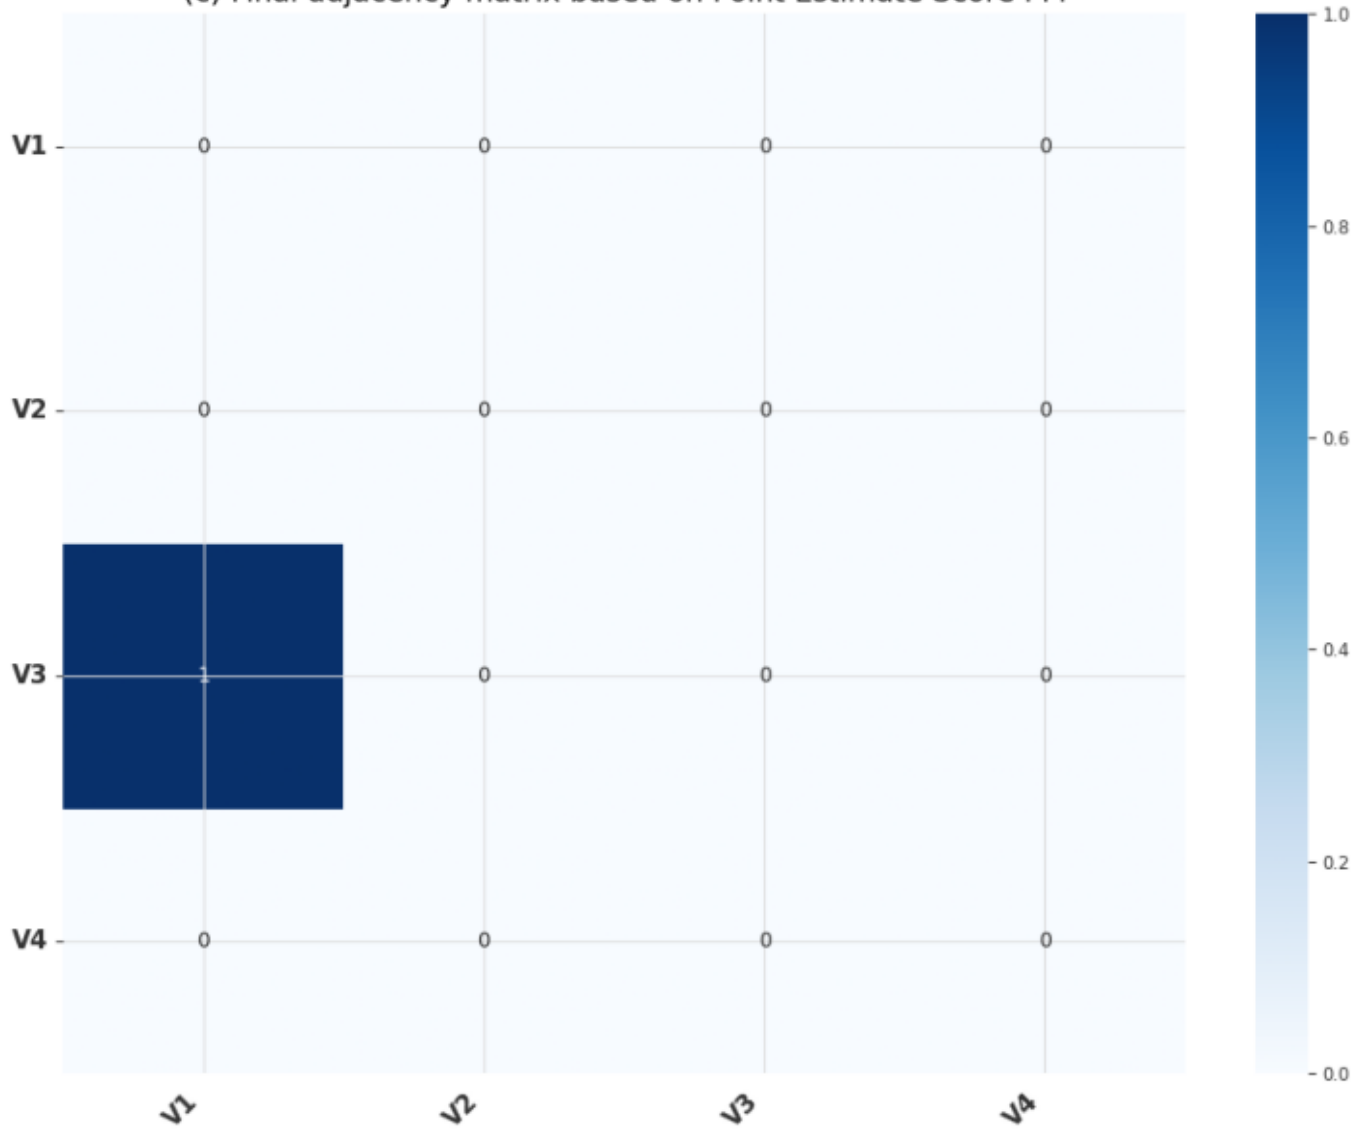

pfi ratios point estimate score

(b) PFI ratio between variables (Point Estimate Score)

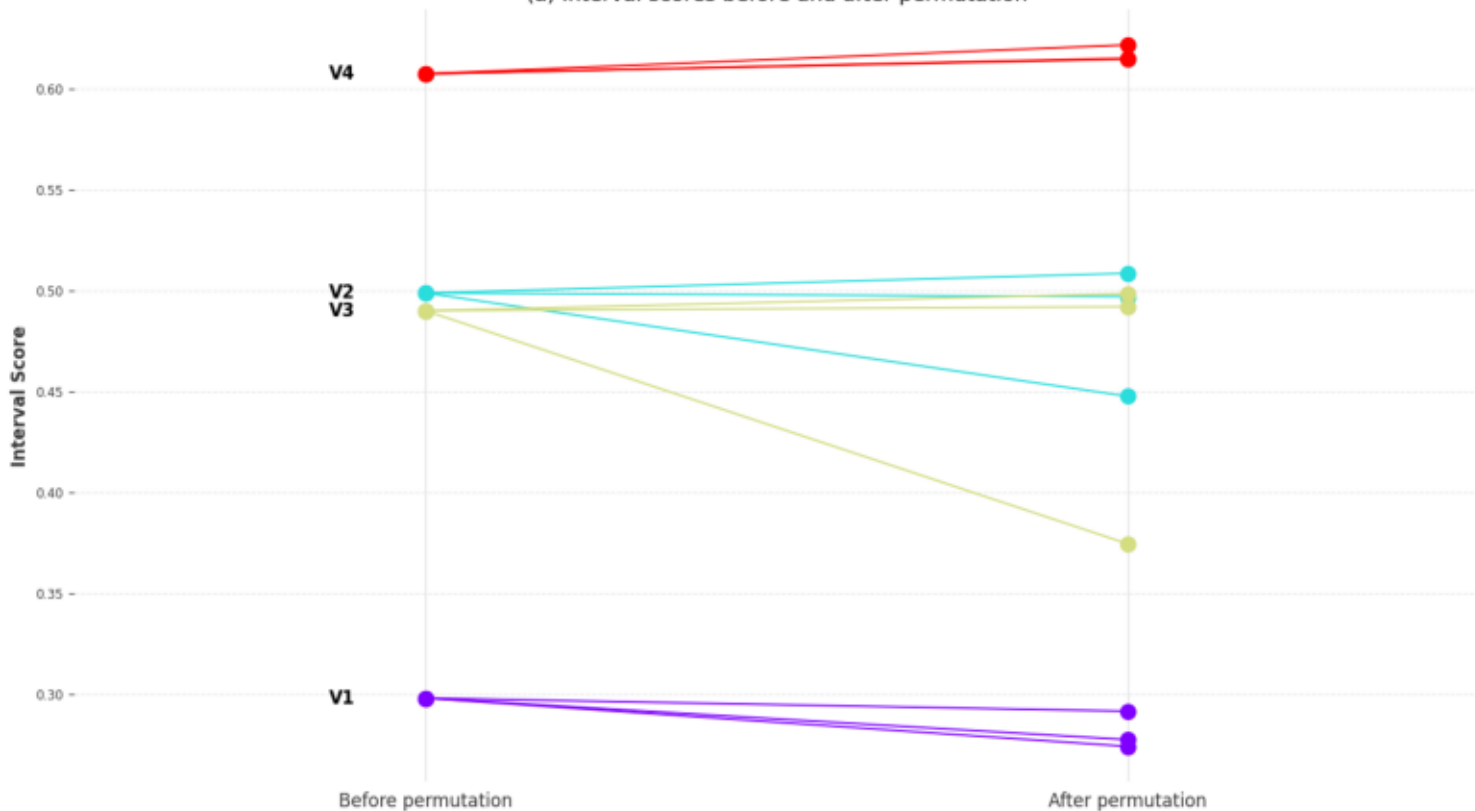

adjacency matrix point estimate score

(c) Final adjacency matrix based on Point Estimate Score PFI

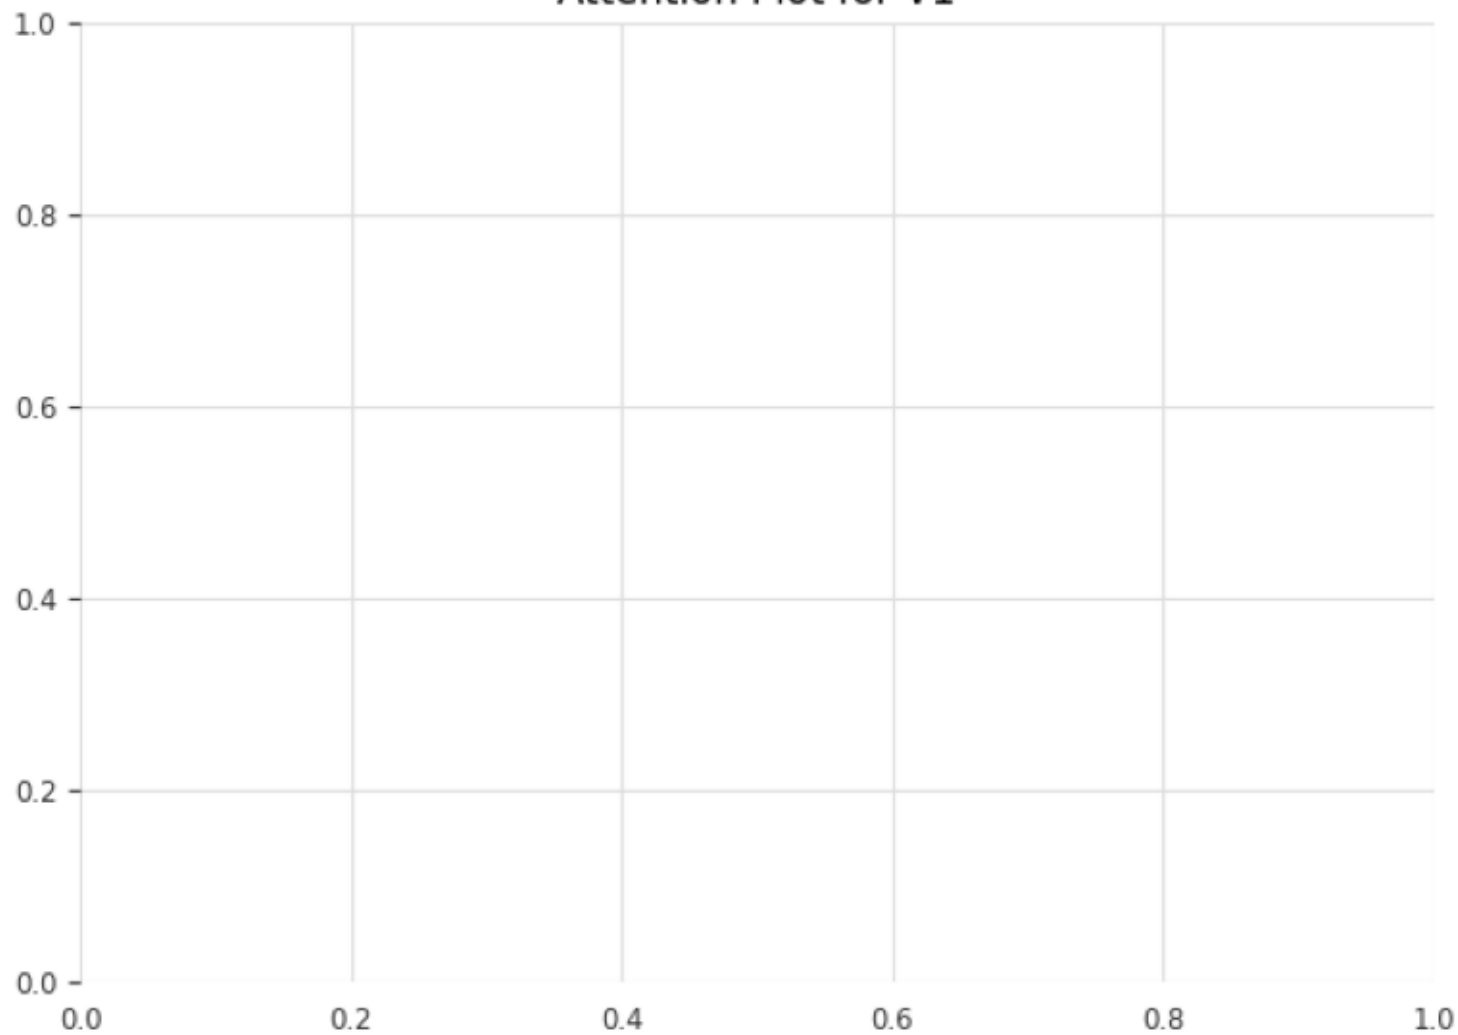

interval scores

(a) Interval scores before and after permutation

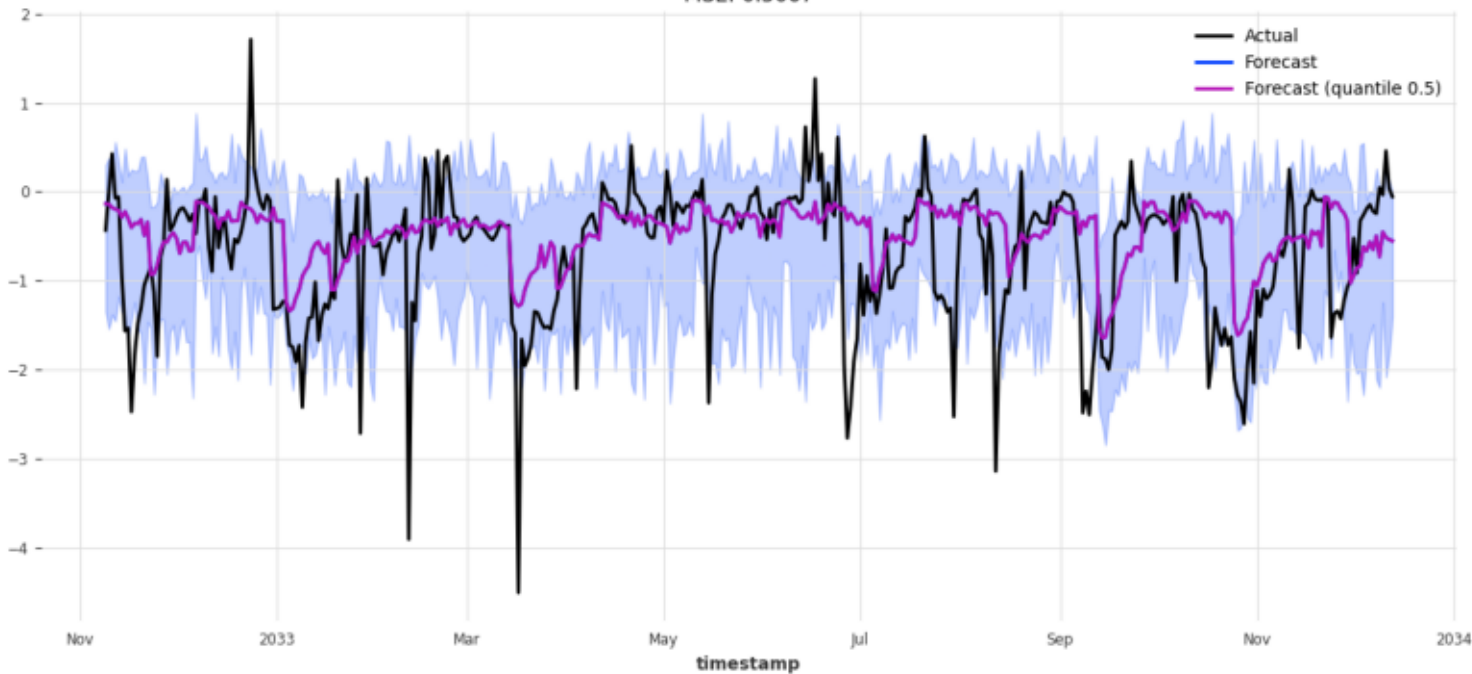

V1 attention

Attention Plot for V1

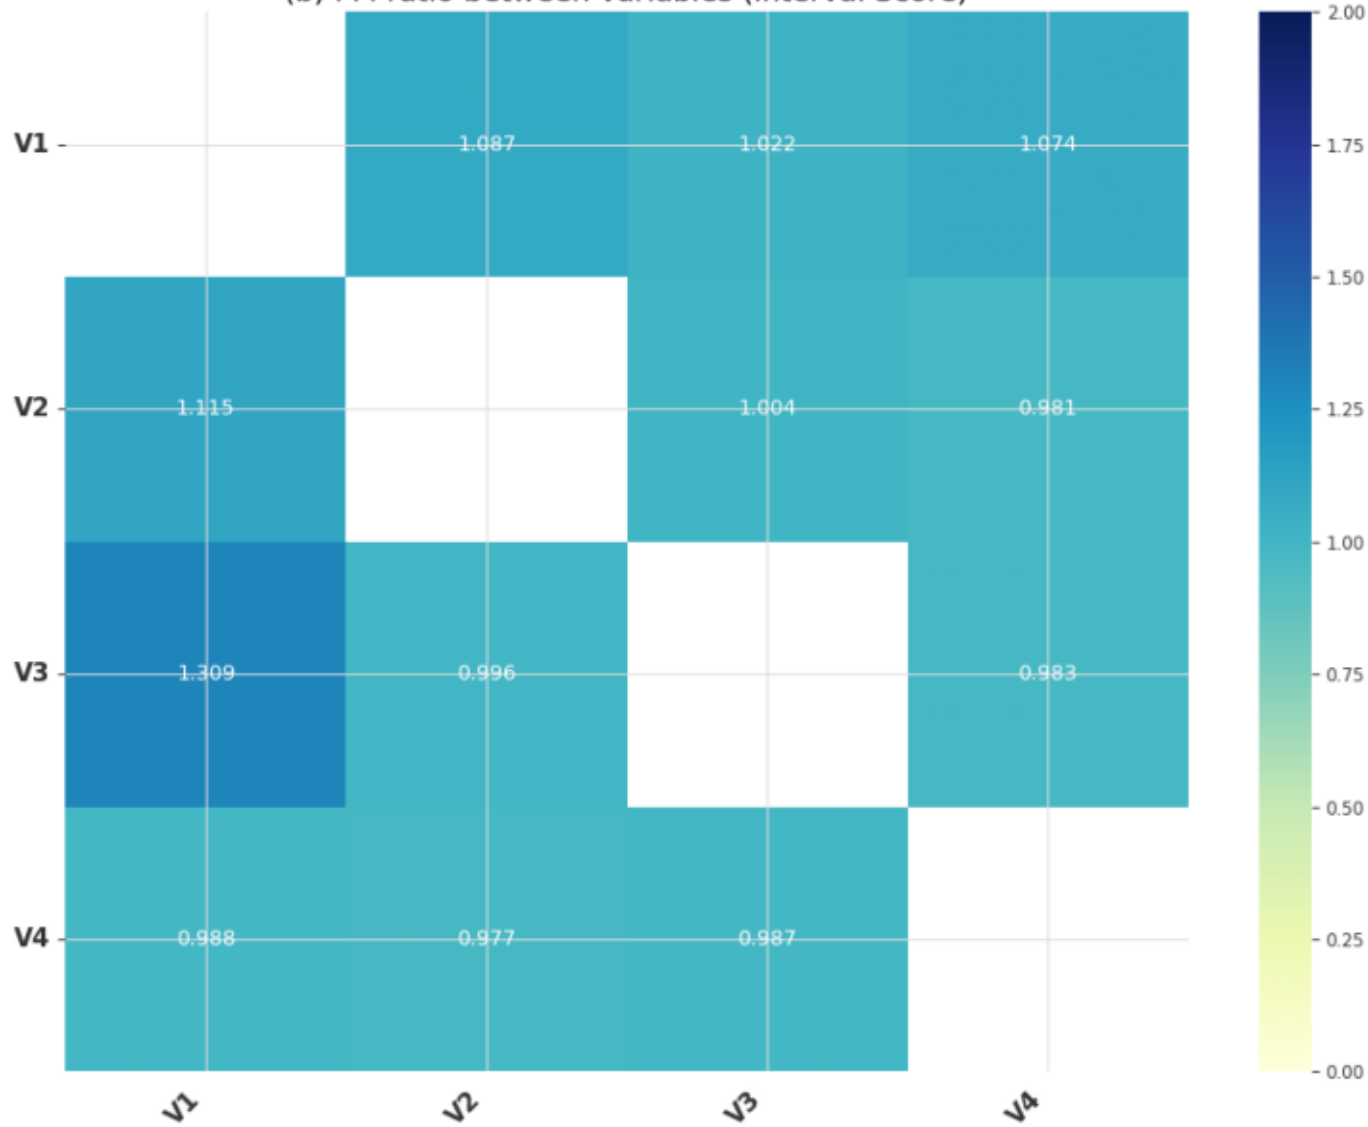

V3 predictions

TFT Forecast vs Actual for V3
MSE: 0.5067

pfi ratios interval score

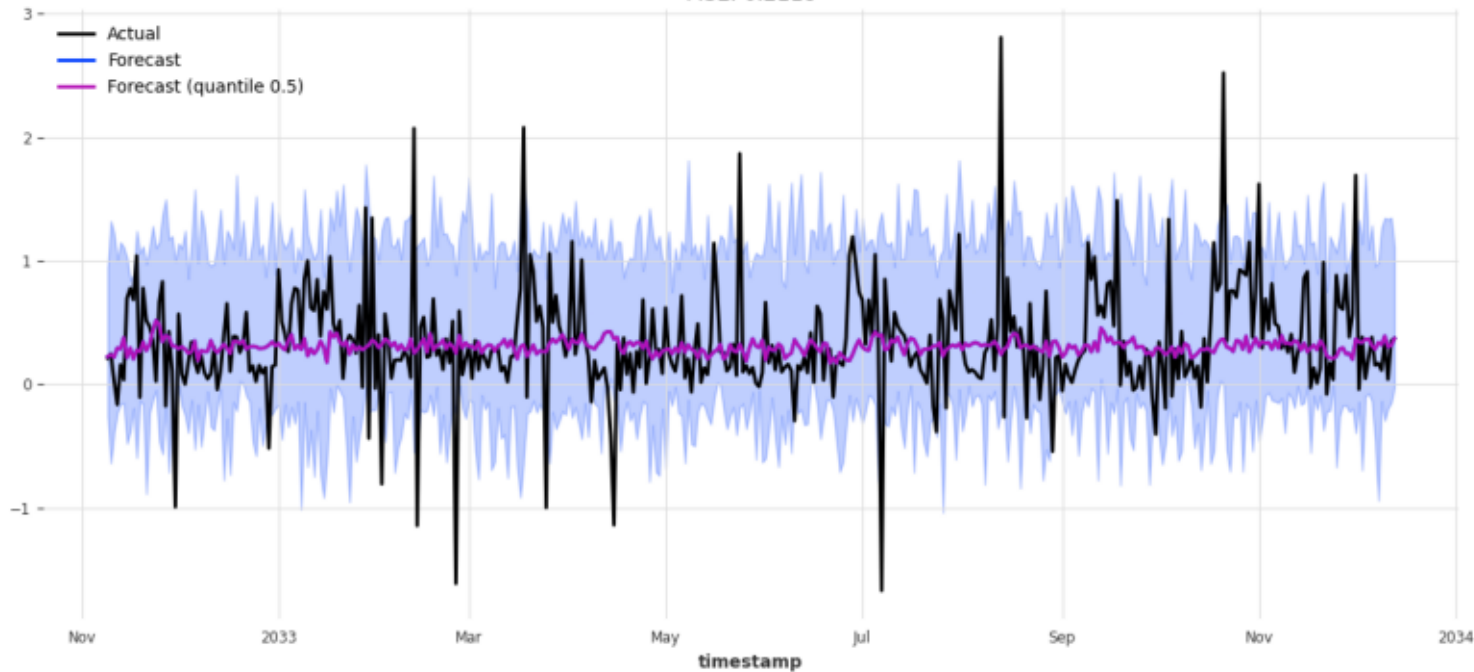

(b) PFI ratio between variables (Interval Score)

V4 predictions

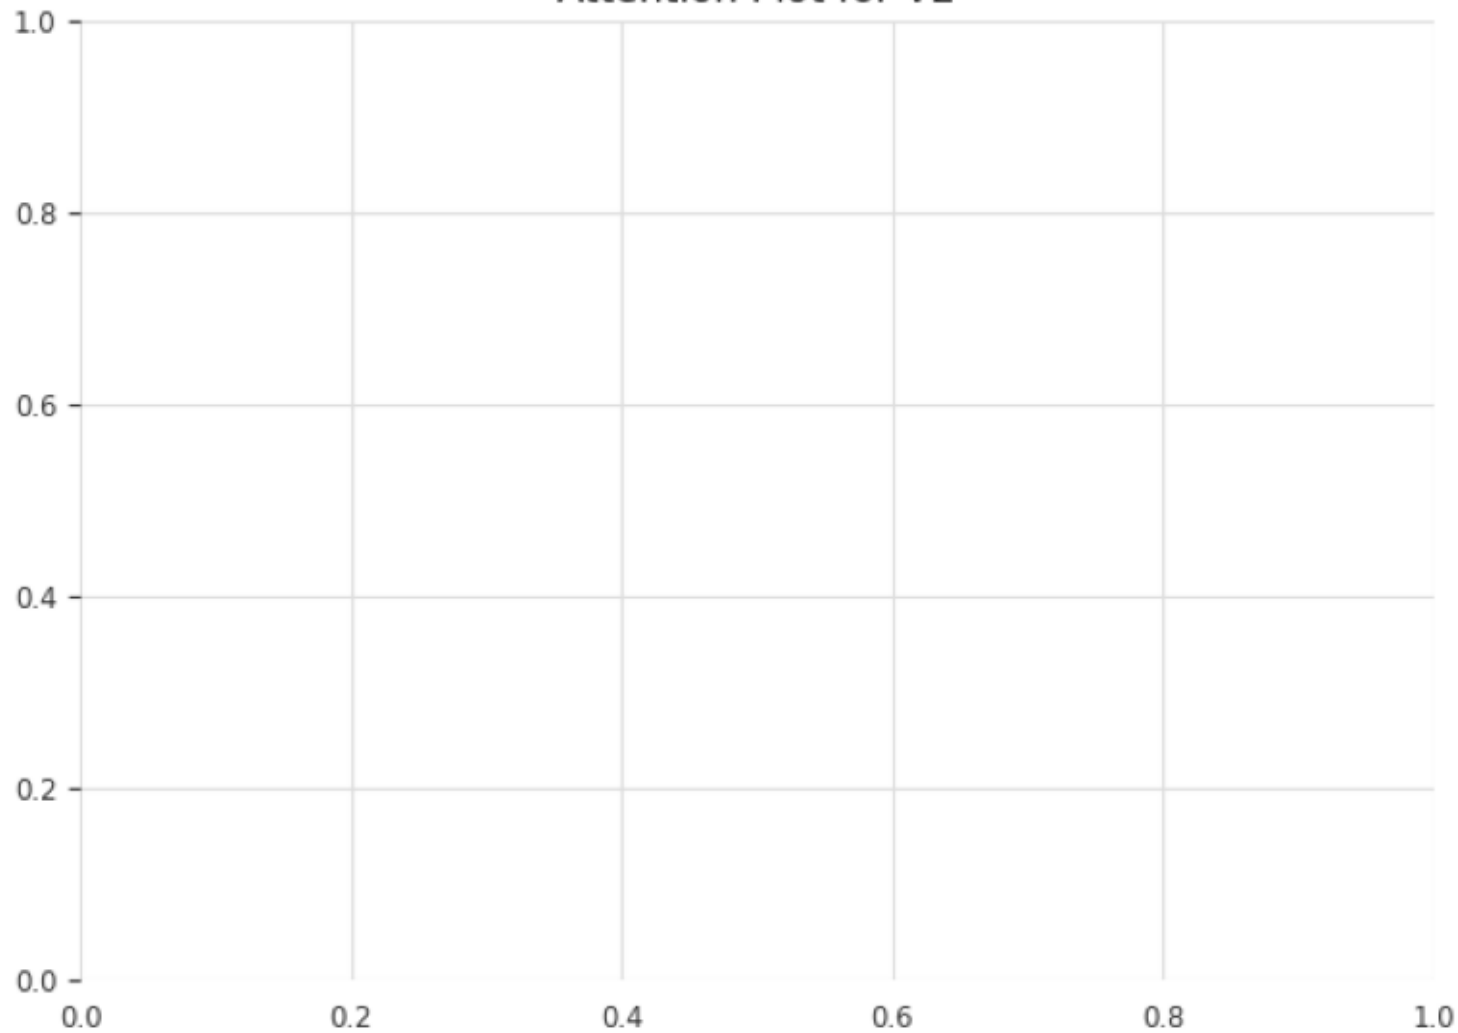

TFT Forecast vs Actual for V4

MSE: 0.2118

V2 attention

Attention Plot for V2

V1 predictions

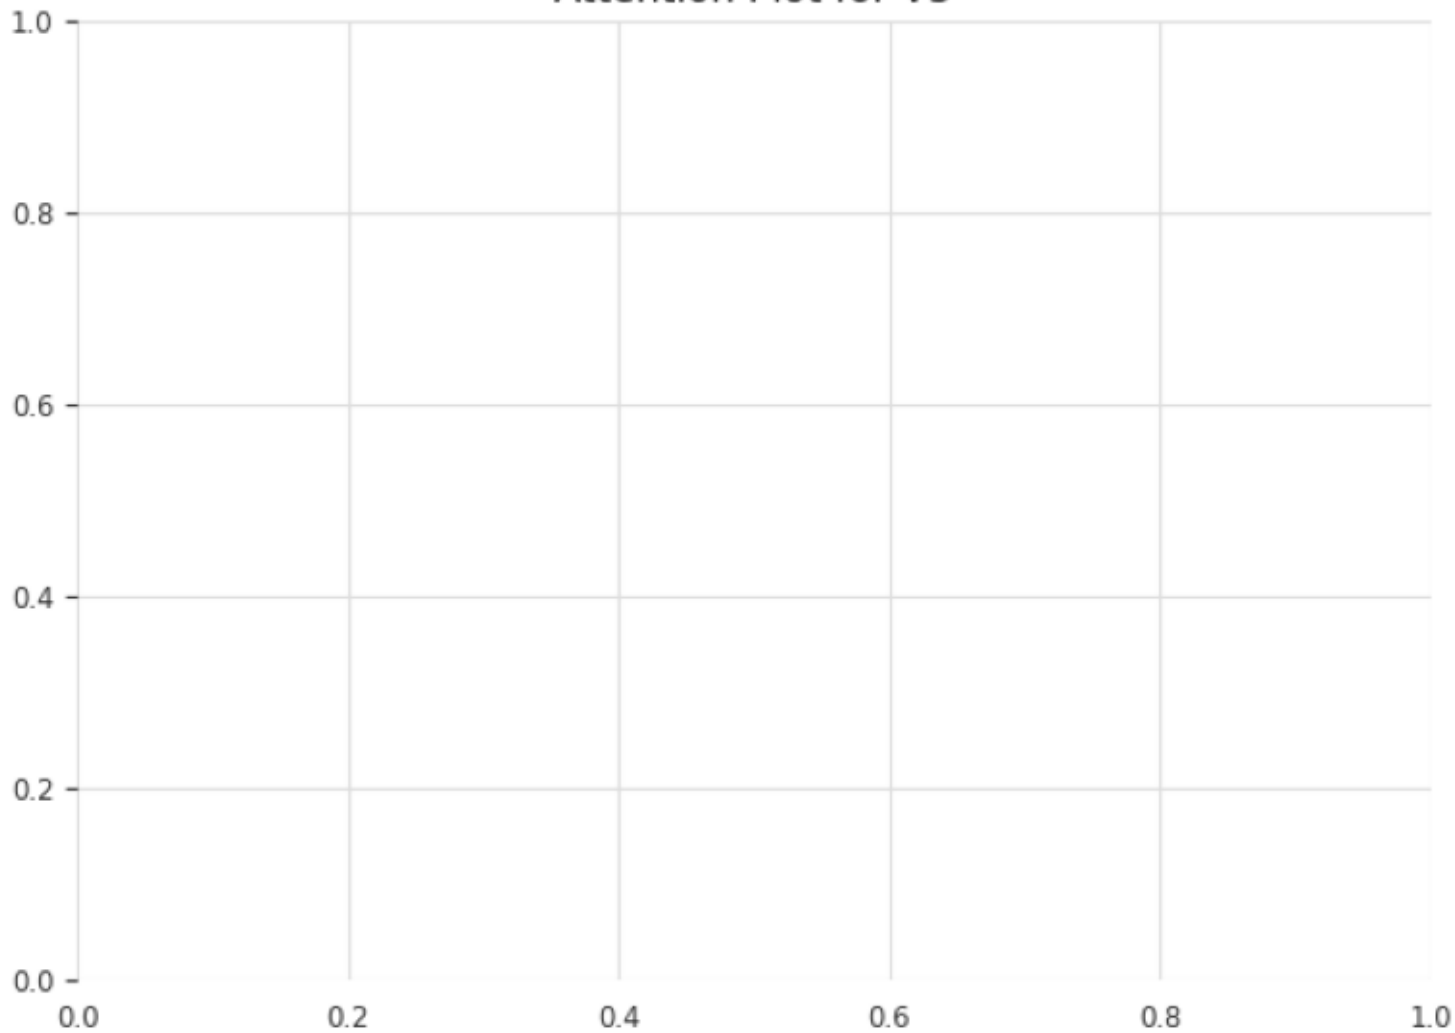

TFT Forecast vs Actual for V1

MSE: 0.9919

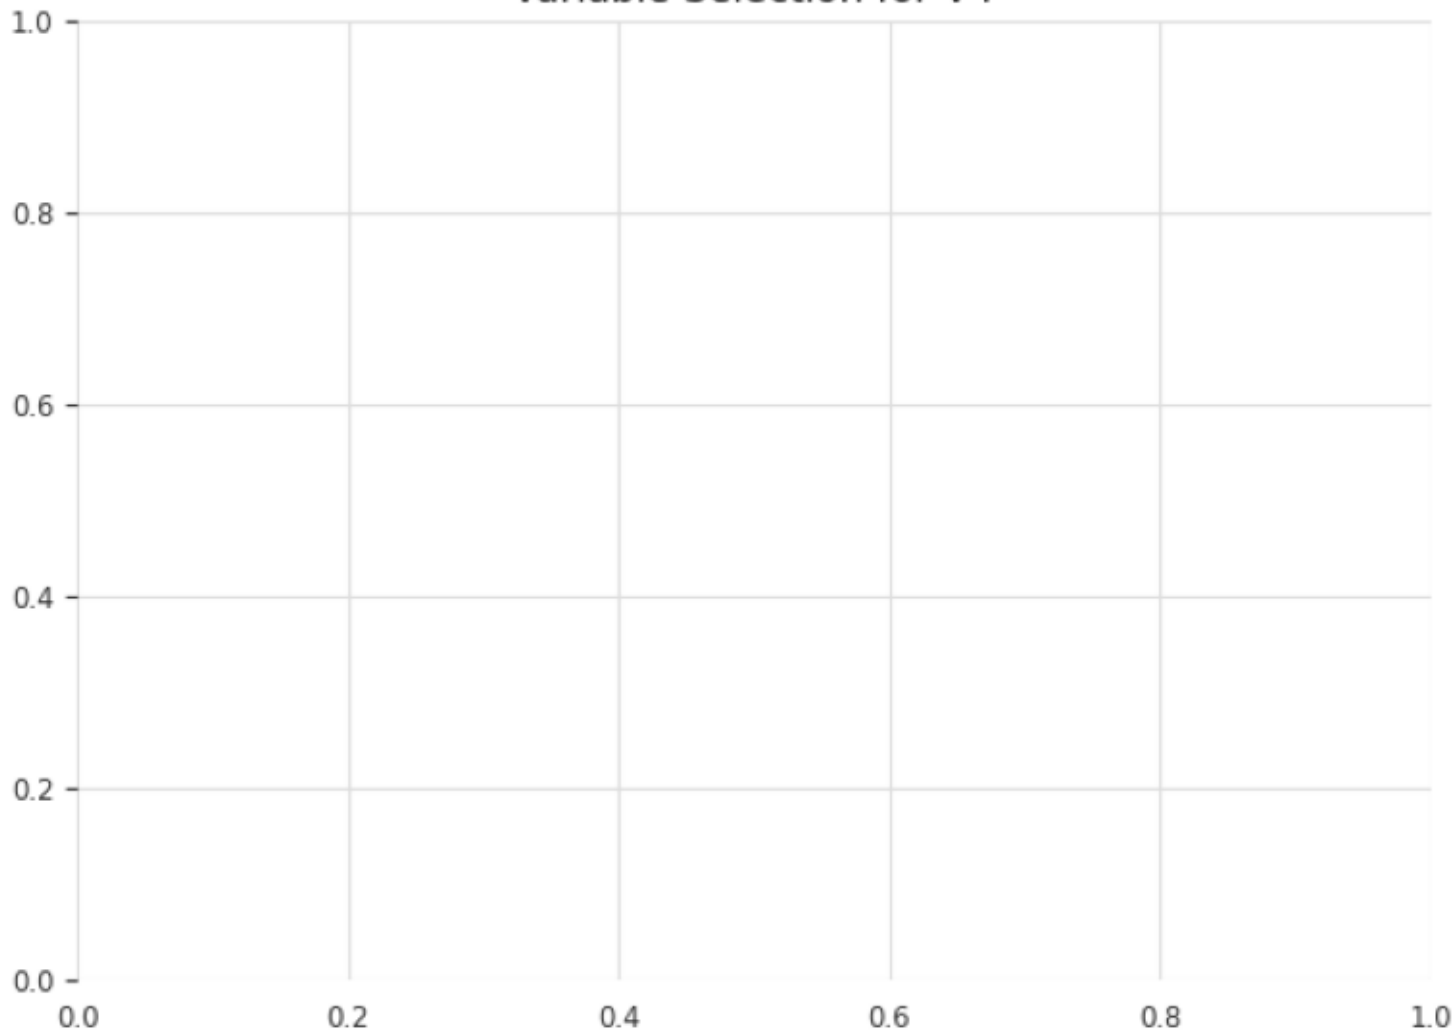

V3 attention

Attention Plot for V3

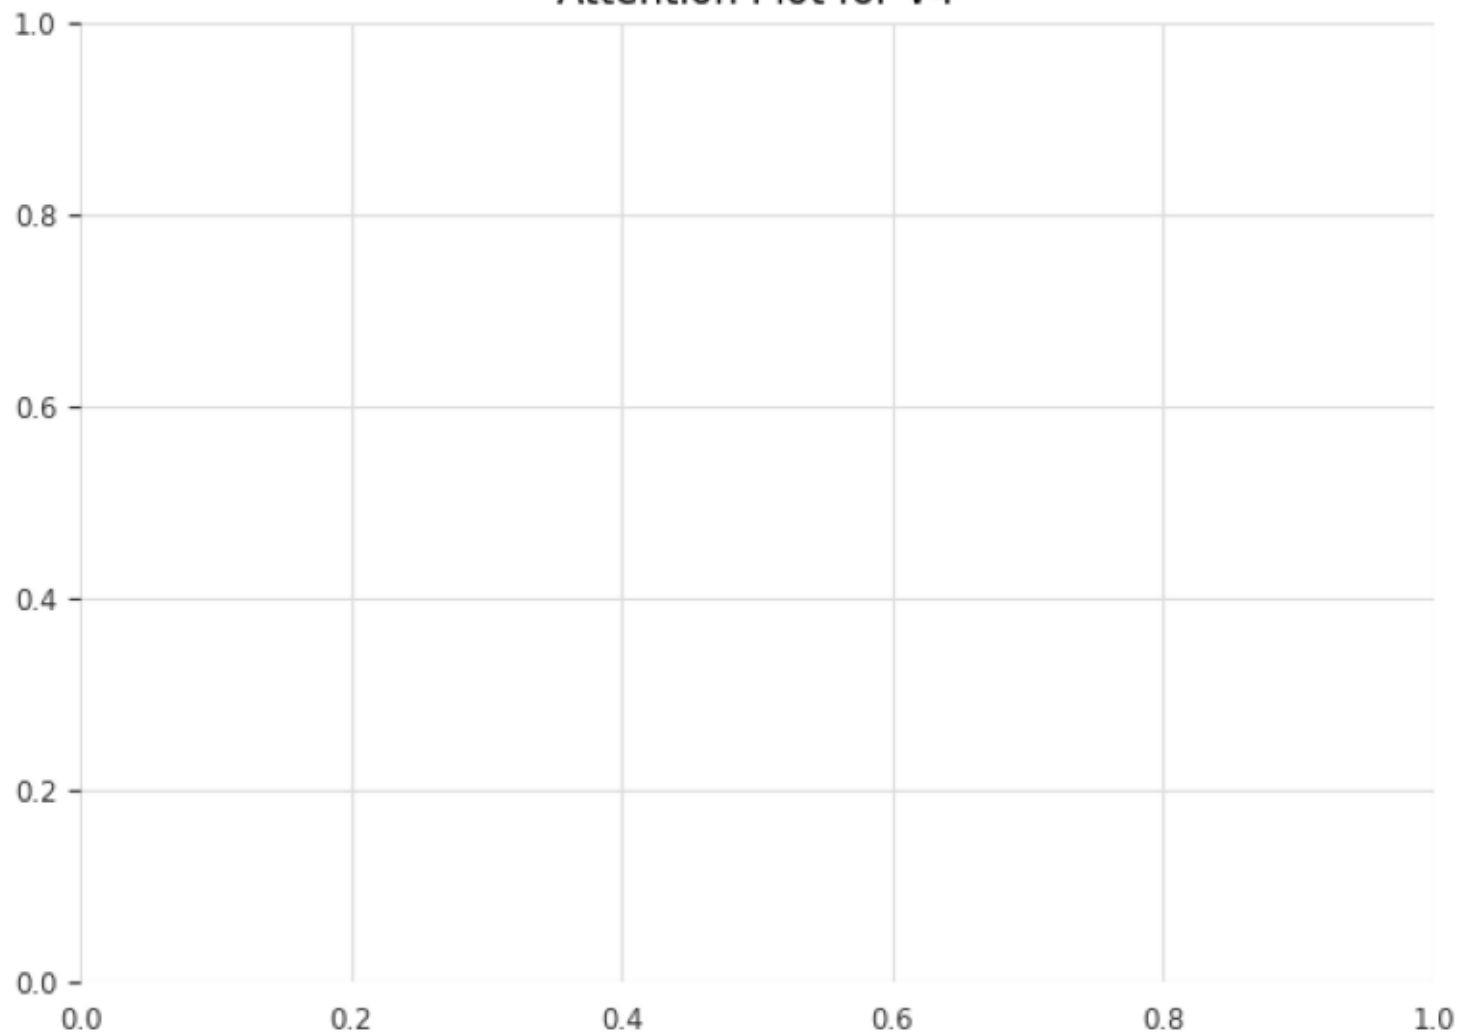

V4 variable selection

Variable Selection for V4

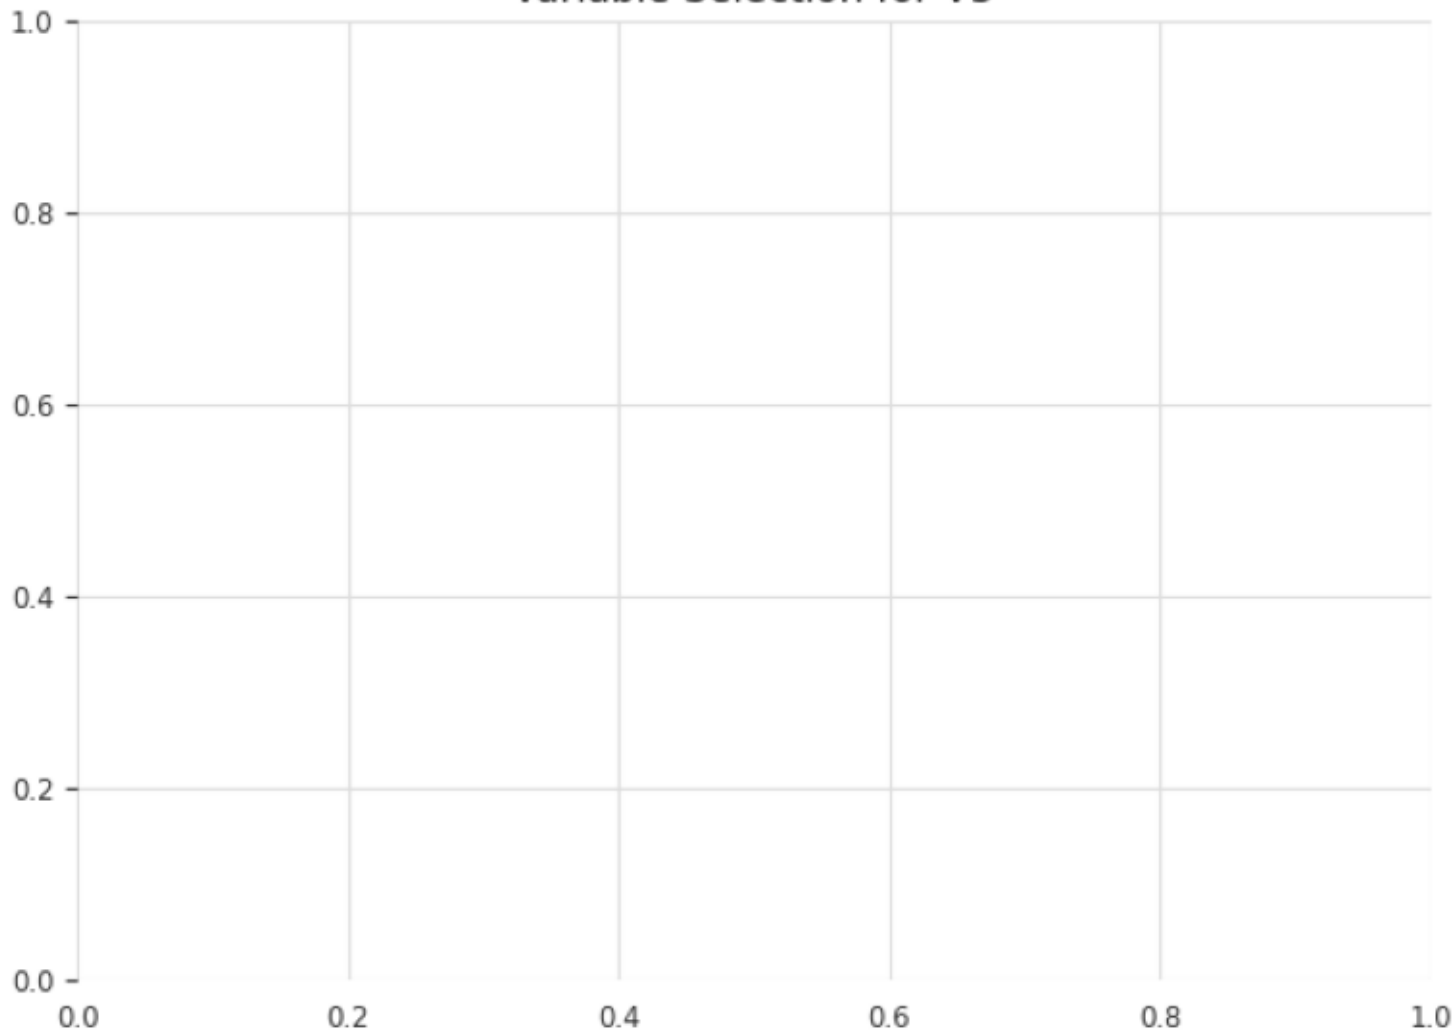

V4 attention

Attention Plot for V4

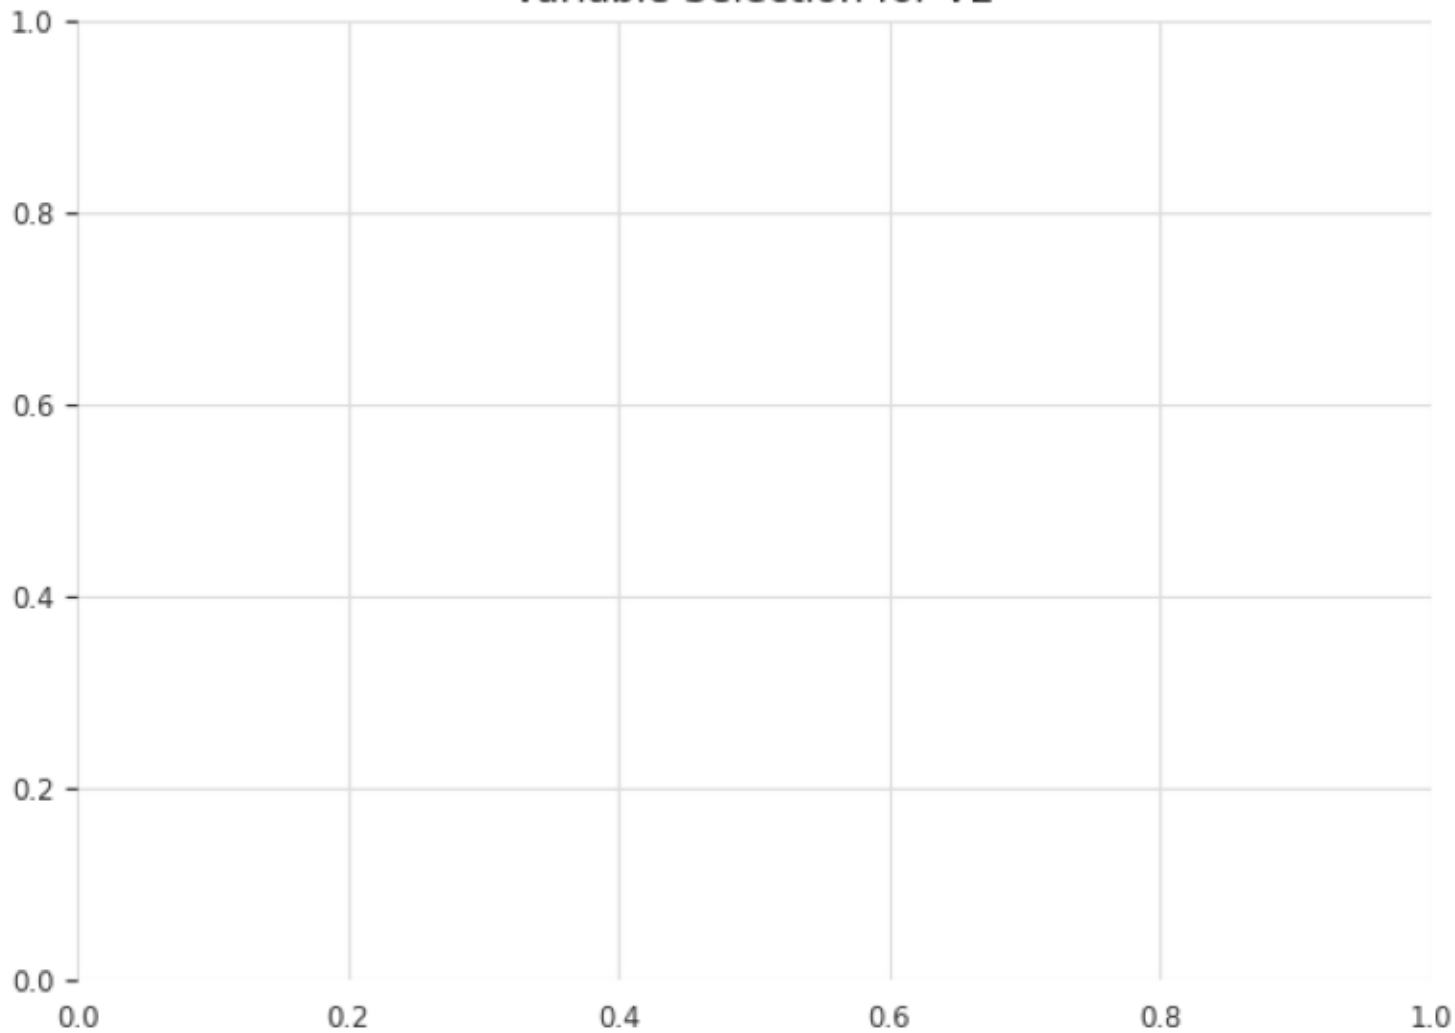

V3 variable selection

Variable Selection for V3

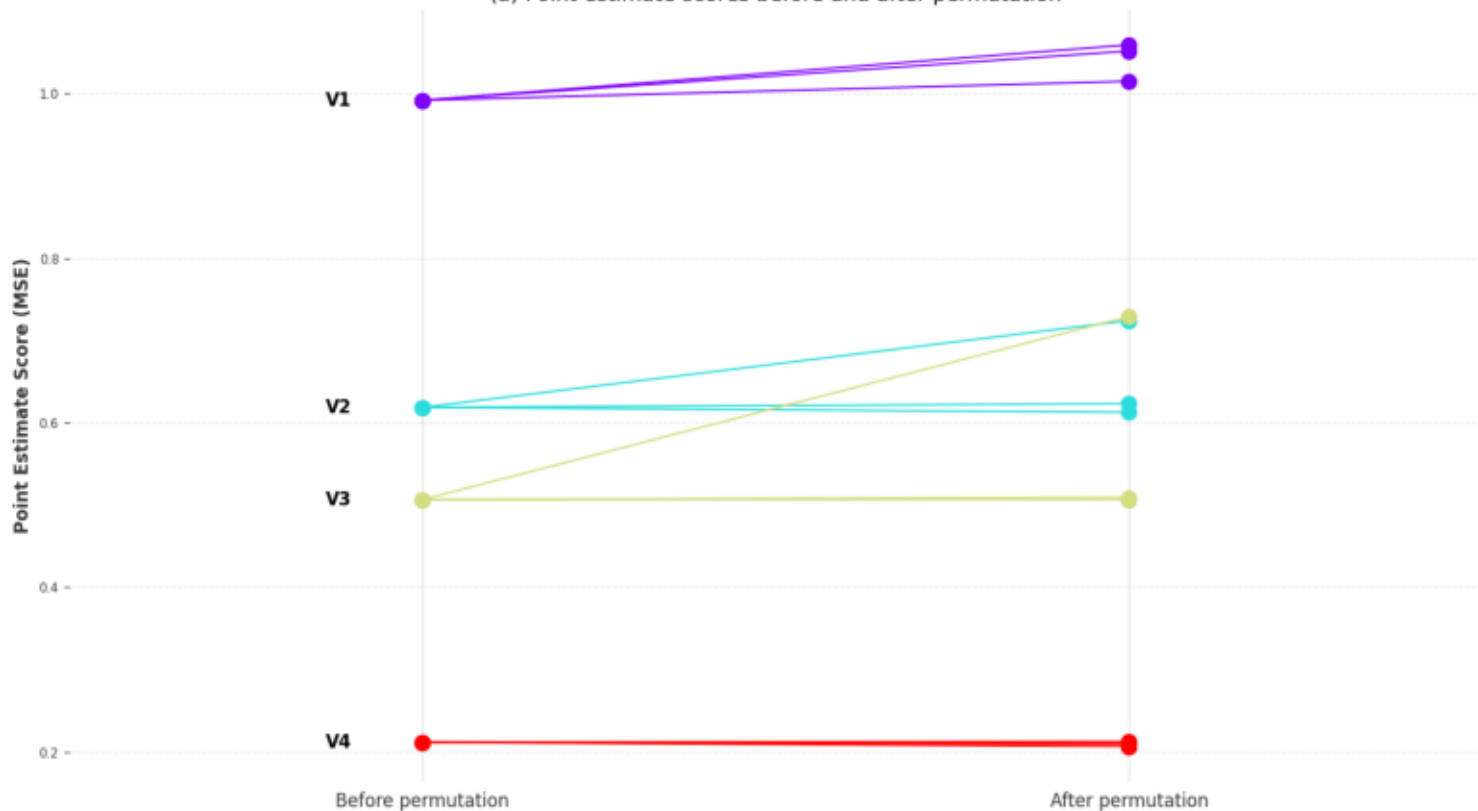

V2 variable selection

Variable Selection for V2

point estimate scores

(a) Point estimate scores before and after permutation

V1 variable selection

Variable Selection for V1
